I was set up by predicted future outcomes from outer space that were distributed to the 740th Tank Battalion family members who collaborated with the Phoenix Police Department Major League Baseball Racketeering Divisions to ruin my Major League Baseball career and steal Total Career Earnings. I think Colonel George Kenneth Rubel I was named after populated my grandma's outcomes and when he died he used the military & etcetera to enter my Neurological System and inner thought because he didn't have existence in my Neurological System. He wasn't kin or created as ancestry or infinite background. Thoughts enter as data in particles belonging to ancestry or infinite background. He used weapons to know what I was thinking.

They connected to³ Kenny Vawters auditory cortex..Kenny Vawter listens to computers never stop generating human voices.. I'm Kenny Vawter human being..

This connection to my biological system is a crime..

I think they manufactured a connection to their spinal cords or biological system but generated a connection to my spinal cord..

It's someone else they connected weapons too.but connected to my Neurological System, Inner thought, biological system and spinal cord..????

Weapons connected to Neurological System with court orders preventing me from service, maintenance, repairs, recovering inheritance, full distribution of interest, lawsuits or etcetera. Something like that..

They put my brain that goes to heaven in hell with these people...

It's insane...

They wanted to make money by torturing me and stealing every thought i think that makes money..

Now Microsoft or Microsoft Government connected to my Neurological System and inner thought.

I think they generated entire fictional life experience outcomes in the digital world using my identity they generated as programs in multiple digital existences. To cover up my true identity and ruin my reputation by having people believe something that's not true or embarrass me.

(?) A judge employed by contracts from Arizona ordered me in a computer courthouse in grade school or high school after determining I would play Major League Baseball. I'm assuming there⁴⁵was a total career earnings distribution. I never had the internet until 2007 when I decided to enroll in the Fire Science program to pursue a career in the Fire Department. I think they generated my identity on the internet when I didn't have the internet. To set me up in a porno pyramid Lincoln 12 Set up.

Let's begin with this....

It appears I've been assassinated.. Manufactured by scientists, Total Career Earnings Larceny, Inheritance Larceny, Tax Return Larceny, Total Career Earnings Larceny, Other Total Career Earnings Larceny, Banking System Larceny, Other Banking System Larceny, Total Existence Earnings Larceny and the greatest Larceny of them all World Wide Grand Larceny.

NASA Washington removed my Neurological System and inner thought from planet earth using weapons and Microsoft. There's a weapon connected to my inner thought sending thoughts to laptops and satellites around the world.

I'm walking around without inner thought or neurological system other than Microsoft or weapons connected to brain.

That's why this is happening...I was campaigned in a suicide assassination to steal my money or potential income outcomes that don't exist but in Demonic Intelligence outcomes that appears in a digital currency without value other than what it steals.

They commit a crime to file lawsuits using my identity as a program without a resolution or actual settlement entering my bank account.

I have reason to believe there's no government it's a contract to steal my money and kill me or torture me until I kill myself as a suicide assassination.

My brain are real vitamins on planet earth...

White Collar crime court orders in data behind digital existence, program plagiarizing the internet, cell phone or from Supreme Court made a contract that plagiarizes the Constitution to stop me from retaining counsel or objectives.

I'm presently having muscles burned until they disappear with shattered shoulders they manufactured after working out for the past year to recover from injuries they caused using weapons connected to every nerve ending.

The digital world was changed..

The world banking system was changed.

The Universe was changed to commit murder or suicide assassination. Torturing until suicide.

Major League Baseball or Sports was changed targeting my draft selections or career outcomes and earnings.

To the best of my knowledge.

Year's draft selections were Racketeered or removed. Each year is a career outcome with total career earnings.

100%...

They distributed my biological system or what I call the maze to make this type of international connection.

I believe using the international space station as part of the criteria to populate the world allows biological system connections.⁸

I have a musculoskeletal connection to laptops that causes injuries by the push of a button.⁹

Or they replaced my musculoskeletal system with a weapon when I woke up with the Breath of Life. I literally woke up from sleep with a Breath after repenting. They used the Breath of Life to commit murder or objectives. Murder for the dead(mathematical formula of brain) objectives for the living.

Used 10 commandments to commit murder.

Used books in the Bible to commit murder.

This is important for readers to figure out.

I'm NASA's Second Coming of Christ.

I've been assaulted everyday at Planet Fitness for over 400 days. (Ongoing). They continue to manufacture and generate serious injuries trying to stop me from working out.

471 days..(?)

Because I potentially earn more money than they steal..

More importantly!

My interpretation..

They or Law Enforcement in America stole my identity as VP MLB Director of Scouting as a formula at the top of Sports or in control of sports as a conception they assassinated manufacturing and creating a banking system athlete or contract creation athlete. Only populating a banking system as conception in Sports. I'm the Real Conception position in Sports with the mathematical formula of my brain helping the identities in the Universe create and populate athletes in Sports. It's the Source of all Banking on planet earth being used as they wish. They didn't want me at the top or in control of Sports as VP MLB Director of Scouting Conception. They need athletes to be created and manufactured as homosexuals from the inside out so the Racketeering population around the world can duplicate and generate their income or what they earn from the inside out and outside in. (They have to be the same homosexual scientist creation from the inside out to generate and duplicate athletes contracts or income)

I think it's to condemn athletes in the Universe more than having what athletes earn using a digital currency without value in a digital world they manufacture and publish.

Employing as ¹⁰VP MLB Director of Scouting I would be in control of Sports as the highest ranking position.

I made this position a Corporation to make decisions in every outcome with Neurological Systems needed to make every decision. It appeared to me that it may be one of the most demanding positions in the world that needed a real market. I happen to be the world's market value with or without scars on my face..

What appears as MLB including communication on the phone or email isn't Major League Baseball. Including the most famous players we watched on Television or listened to on the Radio. They generated a fictitious Major League Baseball identity to Racketeer or remove real Major League Baseball players draft selections and kill them or populate and employ players who are banking systems giving hitters pitches they know are coming, pitchers who throw pitches hitters know are coming in specific pitch counts and position players who don't make the play. Employed by contracts not Major League Baseball but wearing the same uniform.

In this case it's the most famous racketeering in the history of Sports because of my outcomes breaking records and potentially breaking the home run record that was given to Barry Bonds after they removed my draft selection in high school with the outcome of breaking the home run record.

Banking Systems are records in Sports..They wanted to give African Americans in Baseball banking systems to see if they could break any Hall of Fame records..

I believe there's a program behind this document that will rewrite information with their identity to take credit for what I've figured out.

I have reason to believe every attorney in America or planet earth surrendered their licenses for more income and a contract. Contract targeting potentially retaining counsel.

Law Enforcement changing social security number and or data behind social security number to steal my money, file lawsuits using my identity and file tax returns.

Using the world's Terrorism to kill me or target one man..Not supposed to use America's Terrorism to kill one man.

This is a crime of Major League Baseball Total Career Earnings, Inheritance Larceny, Worldwide Grand Larceny and etcetera larceny by law enforcement employed by contracts, entertainers, professional athletes and contract code that plagiarized the federal government...(To the best of my knowledge)

It's another banking system crime that kills athletes and a market that kills the population of the world.

Not documenting what I'm actually doing. They generated my identity as a program in millions or more digital existences documenting a program that happens to have my name or identity..

In most to all cases if I think about retaining counsel I get assaulted..

In most to all cases if I send information to Lawfirm emails I get assaulted..

My digital existence changed from Microsoft to a Satellite Internet Network to a computer generated program and computer courthouse consisting of employed by contracts, licensed by contracts, retired law enforcement or taken leave employed by contracts using white collar banking systems, generated identities, fabricated information and documentation targeting my housing, injury recovery, employment, potential business endeavors, vehicle computer module, mental health, filing taxes,, extreme emotion, vehicle maintenance, plastic surgery, retaining counsel, resources, income outcomes, estate outcomes and potentially selling products at Wall Street and Stock Exchanges around the world using a new perspective by calibrating products, supplements, vitamins, minerals, nutrients, micronutrients, chemicals in prescriptions, food, ingredients, drink and etcetera in banking systems or creations occupying the universe above every nation that are part of populating a population that communicate with the biological system. My digital existence identity entered law contract formerly known as enforcement programming in every place of business or calibrated based on potential outcomes using predicted future outcome programs. I think they generated my identity in a program in every outcome without a human identity. I have reason to believe law enforcement employed by contracts who aren't employed by the state made attempts to change my identity in a Middle Eastern courthouse and other courthouses after stealing my total career earnings and total existence earnings. This perspective is a potential Kenny Vawter Corporation entering every industry but it may employ more than 180,000 people using Creation to create and populate it's

employment in every generation hopefully the next 400 million years. It's¹³ Kenny Vawter, not a Corporation. It's still undetermined because of how it's written and unwritten at the origins of every corporation outcome communicating with a restructured Constitution. They generated millions and millions of fictitious digital existences using my identity and generated or manufactured my identity in a program. Filing tax returns on my behalf, using my name as alias or stealing my identity as a formula. Digital Existence crimes then filing lawsuits on my behalf using my identity as a program. I had my draft picks Racketeered or picks removed from the draft after what appears as a massive point to hit statistic ratio measurement larceny covering up taking the National Batting Title and consecutive hits record 2 or 3 years in a row. Ruining a potential career playing MLB for 24 years, 7 All Stars, breaking 17 Hall of Fame Records, MLB Coaching Career and VP MLB Director of Scouting outcome. They replaced my Major League Baseball career with other players who played my career using my banking systems. Stealing my career outcome banking systems and other career outcome banking systems. Replacing those careers with employment by contracts. I think 3.5 billion employment by contracts Racketeered or removed my picks from the draft with intentions to commit homicide or have me kill myself after stealing my total existence earnings, total career earnings and other total career earnings. Contracts were distributed around the world consisting of 3.5 billion people, United Nations contracts, every government contract and creations above every nation consisting of the Universe who used the World Banking System they made a weapon to scar my face. I have reason to believe this world banking system may consist of my total existence earnings or Pakistani Korean. They killed 860 million or more athletes over the course of so many years targeting sports career outcomes replacing their careers after stealing their total career earnings with other players who may of played their careers with their banking system. I have reason to believe they generated every identity or attached a generated identity they use to send and receive messages on this digital existence program in every outcome or every identity consists of employment by contracts and they populated every outcome with employment by contracts at every company or business specifically targeting my recovery outcomes, housing outcomes, employment outcomes, surgery outcomes, retaining counsel outcomes and etcetera. Players who removed my picks from the draft played or not played my career retired from sports and entered law enforcement employed by contracts or FBI employed by contracts started targeting my digital existence life experience in every outcome to set me up and stop me from income outcomes, estate outcomes, housing outcomes,, employment outcomes, retaining counsel outcomes, resource outcomes and potentially selling products around the world outcomes. They connected my Neurological System to Microsoft stealing thoughts for products. I have reason to believe this connection with Microsoft consists of coordinates on Google maps that may change States internet or programs that look like the internet, communicates like the ¹⁴¹⁵internet but it's a program including underwater internet programs targeting my objectives on

the internet specifically data behind information entering neurological system. I have quadrillions or more of potential total product earnings attached to most of my ideas. My bank accounts are or were programs they used to remove funds from my bank accounts. They populated employment by contracts in every communication outcome to stop me and started populating employment by contracts in every place of business targeting my potential business endeavors or direct objectives. I have reason to believe my inheritance entered law enforcement banking systems that distribute interest at my Wells Fargo Bank Account allowing law enforcement to take ownership of every purchase outcome or commit digital crimes targeting potential purchase outcomes. For example they calibrated my 2019 Ram 1500 SLT Big Horn Classic computer module in a program targeting electronic components and touch screen. I have reason to believe the truck consists of banking systems. They may have changed every outcome in my life in, as or part of a ¹⁶formula contract targeting my life experience or potential business endeavors. They made a banking system a weapon causing massive injuries targeting my geometry and scarring my face in every outcome in a 360 degree mathematical formula. I'm at Planet Fitness every morning trying to recover from injuries while undergoing medical procedures to remove the scars but it appears law enforcement employed by contracts or federal agents employed by contracts that aren't employed by state or federal government may of entered every potential medical outcome or plastic surgery outcome with contracts, fabricated information, bribes and remanufacturing fraxel lasers, CO2 lasers, microneedling and etcetera as weapons targeting my face known or unknown to practicing physicians. They removed the connectivity of my face and neck. I would have finished my Major League Baseball career breaking 17 Hall of Fame Records hitting over 700 home runs making me a Market Value in addition my perspective selling products around the world makes me a market value. They started using Wall Street to kill athletes. It appears they removed The United States Federal Government and replaced it with a generated fictitious United States Federal Government identity or contract to kill athletes. I have reason to believe they need to reincarnate athletes in sports to conquer Sports populating the dead in Sports. It may have something to do with reincarnating athletes in Sports without eternal life so the FBI can live their infinite existence or eternal life in the Universe. Avoid burning in hell and continue with their homosexuality and promotions or having hetero homosexual experiences for money to conquer every rectum on planet earth. Reincarnating athletes in every outcome manufactures banking systems in every outcome from the inside out. Allowing who's in control of these banking system complete control of athletes from the inside out. Populating reincarnated athletes in sports with these banking system continues to have athletes procreating or conceiving homosexuals that usually are given up for adoption after birth or when determined they're homosexuals. The FBI are homosexual deceased creations who took control of populating athletes in sports. They may have restructured Wall Street and Stock Exchanges around the world targeting my potential business endeavors, income outcomes, estate outcomes, housing,

employment, retaining counsel, resources and potentially selling products at Wall Street and Stock Exchanges around the world. They broke every contract targeting my potential business endeavors to stop me. I've searched for a lawyer or lawfirm unsuccessfully since 2012. I have reason to believe partners who took lead accepted a contract targeting retaining counsel, potential business endeavors and recovery. I found lawfirms around the nation entered the deceased existence or employment by contracts or that what does not exist can not file lawsuits for that what does exist. They have to generate identities or generated my identity and file lawsuits on my behalf that never finds a resolution. Never calling me back. Immediately after I communicate with a lawfirm they generate lawfirms identity preventing me from communicating with lawfirms. I have reason to believe Law Enforcement employed by contracts, law contracts formerly known as enforcement and taken leave or retired law contracts who use white collar banking systems enters every place of business outcomes with fabricated or generated program court orders targeting my reputation.

I would like to retain counsel with efforts in finding a resolution in every outcome in my life...

I would like to start with lawsuits against law enforcement at both social security disability and financial institutions that are programs in thousands of different other programs using my identity.

I've contacted social security disability and¹⁷ financial institutions the past ten years letting them know what's going on. There won't be any problems filing lawsuits. This needs a resolution.

I have reason to believe Social Security Disability distribution doesn't communicate with taxes I filed at Tax Help.

The origins of all existence were rewritten targeting potential business endeavors and recovery. I have reason to believe they have rewritten the origins of all existence on every planet targeting the population of the world. Duplicating Original creations and populating every planet with deceased existences targeting existence in, as or part of one formula to rule on every planet as the dead that rob amongst the living. One formula as one lineage contract (family).

I have reason to believe that some of the scarring that appeared on my face was caused by extraterrestrials with origins of black magic. The military employs Extraterrestrials.

Employed by contracts entered ingestion, absorption, inhalation and injection by recreating or recalibrating it's origins targeting my recovery. It's how the brain responds or how ingestion, absorption, inhalation and injection communicate with the neurological system. I have reason to believe ingestion, absorption, inhalation and injection were unwritten, rewritten and written communicating with the deceased existence and not existence. Employed by contracts enter prescription manufacturing generating manufacturer identities changing chemical compounds within prescriptions with rewritten origins targeting my recovery. I'm not deceased existence, contracts, promotion or psychiatric. I woke up with the Breath of Life in 2007 with perfect ¹⁸biological rhythm. #1 DNA in the World. I was saved by both water and blood. The Breath of ¹⁹Life consists of 900 quadrillion or more identities consisting of creation above every nation in the world. I have VP MLB Director of Scouting, Hall of Famers, entertainer, intelligence and military molecules in my blood.

Formula 900

This perspective can't be stolen. I happen to be the origins and my life experience is the banking system.

My entire digital existence life experience are contracts consisting of banking systems targeting my income outcomes and business endeavors.

I have reason to believe law enforcement employed by contracts generated my identity to steal or after stealing my total existence earnings.

This digital existence is the deceased existence they kill people in. At the moment I happen to occupy the same space as it's contracts. Until further notice..

These generated programs using my identity are calibrated with communication outcomes sending messages I don't send.

I have reason to believe there's no World Wide Web...

I have reason to believe they wrote a statute preventing lawfirms from filing lawsuits against their employer.

At this point I've lost communication with a Trust Officer or she refuses to respond to emails or return phone calls after I made attempts to retain counsel. They may have generated my identity as a program without a human identity generating fictitious inheritance distributions in other generated programs using my identity as a program or identity as a formula or generated fictitious distribution objective outcomes. have cosmetic surgery while I never actually received the funds to have cosmetic surgery. Never having cosmetic surgery. Law Enforcement employed by contracts may have stolen inheritance and generated a fictitious digital inheritance or Trust. Only capable of distributing a banking system using digital currency with no actual value that communicates with a fictitious digital Wall Street in a program making it appear it's a real trust with investments. They may be distributing my total inheritance in Zia Trust and Estate employment bank accounts. I have reason to believe they may of researched total inheritance outcomes since 1932(?) finding \$84 million dollars. It could have been when they changed my grandmother's digital existence to a program switching total career earnings to a program with digital currency having no value but capable of making purchases targeting my inheritance from the very beginning using another predicted future inheritance outcome programs. Zia Trust and Estate could be a generated Zia Trust and Estate identity employing deceased existences using law enforcement employed by contract banking systems. They may have accepted bribes targeting cosmetic surgery and purchasing a residence. Trying to stop me from recovery, removing scars from my face, employment, selling products around the world and purchasing a residence.

Deposits are deductions from Total Career Earnings or Total Existence Earnings.

I have reason to believe they may have distributed my inheritance or digital currency with generated fictitious Zia Trust & Estate identity in millions to billions of deceased existence bank accounts, employed by contract bank accounts and dead mathematical formula of brain bank accounts.

Strong Reason to believe inheritance was distributed as State Inheritance...

Supreme Courts are plagiarized contracts that generated fictitious Supreme Court identities that Racketeered my draft selections who documents a banking system contract they generated a lie to cover up stealing my money.

Another fictitious presentation in a formula making it appear they've distributed with fabricated documentation in the same banking systems used at the Supreme Court.

Stealing my trust, investments, stocks, money market accounts, IRA's, CD's and etcetera as 100% beneficiary.

It could easily be securities fraud and investment.

I think they stole my homes in Arizona after generating my identity as a program with a fabricated identity or without a human identity then distributing the sale of the homes in law enforcement bank accounts then switching it's sale distribution to a digital currency with no value at Bivens and Associates, Zia Trust and Estate and Merryl Lynch. Then law enforcement contacts the financial consultants to cover up this crime. (Law Enforcement Banking Systems)

I have reason to believe communication regarding these crimes has employment by contracts using programs to answer questions. They read answers to questions pre calibrated on computers.

Generating email identities and changing every phone number on this digital existence internet program to employment by contracts targeting income outcomes, estate outcomes, filing taxes, housing, employment, retaining counsel, resources, returning to Major League Baseball and selling products around the world at Wall Street and Stock Exchanges. Distributing bribes in every outcome targeting the most important resources.²⁰

They manufactured my transportation as a banking system paying employment by contracts. Manufacturing repairs to have me spend money after they paid every Auto Center to steal my money while never making repairs.

²¹Ongoing for 47 years or more including human background...Ridiculous..

I have reason to believe this attempt to stop me entered my human background many years ago who agreed to have more money with a contract not knowing the consequences but ultimately targeting the Vawter lineage or bloodline. To kill every Vawter on planet earth or eventually remove DNA, genetics or chemical makeup indicating Vawter and replace it with different DNA, genetics or chemical makeup. Impossible to identify because of how they recalibrated medical data and genetic testing medical data with predicted future medical data outcomes in a program. Populating employed by contracts at every testing.

I have reason to believe it's a hit on Vawter bloodline and Baker bloodline (Grandmother).

Killed mom, dad(?), uncle and grandmother...

Phoenix Police Department Racketeering Division raped mom at Arizona State University and grandmother to ejaculate prescriptions in rectum or vagina targeting neurological system.

I have reason to believe internet program search outcomes aren't reflecting actual searches. Rewriting document.

Generating fictitious auto insurance or state farm identity as a program that doesn't have what full coverage would indicate sending claims to generated identities who aren't employed by auto repair shops or collision shops but employed by contracts targeting drivers.

I strongly believe allowing performance enhancements, Anabolic Steroids, Contracts and banking systems in amateur sports prevents Neurological Systems from fully developing and athletes from playing at full maturity levels. They only act based on banking systems to do or not to do something in a contract. Either the program in their brains won't allow them to respond, they're not willing or choose not to do something. Free will may be removed because of programs connected to their Neurological System. ³⁹ Kenny Vawter missing identity data at IRS Social Security Number are formulas of other people's bank accounts I'm not homosexual Missing Identity Data at IRS, They changed my identity at IRS, Regenerated in Digital Worlds, Changed Nations Technology to cover up stealing inheritance, Tax Returns, Major League Baseball Total Career Earnings, Major League Baseball Tax Returns, Total Career Earnings, Identity Data algorithms, Total Product Earnings, Predicted Future Income Outcomes in every career outcome and other career outcome, Banking Systems and Intellectual (inner thought in laptops around world) property earnings Larceny and Embezzlement_kenny_wesley_vawter

I have reason to believe Anabolic Steroids could potentially be Banking System Lifelines injecting chemicals and hormones to sustain life. These injections are deadly outcomes because of who's in control of not providing the chemicals and hormones needed to sustain life or changing chemicals and hormones targeting objectives.

Banking System Lifelines could potentially disappear because of crimes or turning off these banking systems to commit murder, slow death onsets or murder by natural causes.

Banking System nutrition

Contract nutrition

Both of these could potentially be fatal when turned off

Removing creation from nutrition/Sunlight, water, nutrients and etcetera

Changing farmers neurological systems to deceased existence or dead changing fruit, vegetables, meat, chicken, poultry or etcetera.

Changing ownership Neurological Systems to deceased existence or dead changing everything from the inside out and outside in.

Removing nutrients from consumers Neurological Systems.

Removing nutrients from athletes Neurological Systems

Who's in control of athletes nutrition is a major concern. Being in control of their nutrition could potentially stop fully developed athletes at full maturity levels. Muscles never fully develop changing real muscles to silicone or objectives.

Anabolic Steroids never allows the Neurological System to fully develop when introduced at early ages/Never written correctly.

⁴⁰ Kenny Vawter

Anabolic Steroids, Performance Enhancements or hormone therapy could potentially be written to change consumer or athletes to homosexuals from the inside out/Manufactured homosexual demon or objectives. Change people from the inside out to whatever they want..

I have reason to believe 80% or more of Anabolic Steroid users in America or around the world are given weapons on their laptops that steal muscle molecules from other Neurological Systems who use or don't use Anabolic Steroids.

I believe this type of Larceny targeting athletes or consumers human being market creation or banking system contract creation have more to do with preventing them from having what they create in their lives rather than personally benefiting from its Larceny. Although their arrogance far exceeds the benefits from any muscle gain they may profit from by its Larceny specifically when they begin to populate athletes or consumers outcomes they steal from. It's unreal!! At this point I'm confident to say I've never walked in a room with a better athlete than I AM at the full maturity level. I was shut down at 3 years old knowing my outcomes playing Major League Baseball.

Plagiarizing acne medication

It appears the digital world is so plagiarized and manufactured it has people walking in the same room with completely different mindstates of information pertaining to the same subject category or referencing human beings as programs with multiple program identities occupying the same human being identity. One human being could potentially have multiple identities in different Neurological Systems based on generated information they manufacture in their digital existence or program that plagiarizes the internet. In other words one human being is a homosexual in one neurological system, psychiatric in another, child molester in another, pedophile in another and African American in another.

Same person is a African American at the gym, child molester at the park, homeless at the grocery store and etcetera or largest lawsuit in the history of the world as he sits in his truck after getting tortured by the entire world after stealing his Inheritance, Major League Baseball Total Career Earnings and Total Existence Earnings exceeding \$987 Decillion dollars. Who's not allowed to live his life experience with something he creates. So they connected my Neurological System to their laptops and biological system to their bank accounts to live the most luxurious lifestyle while they assault and torture my auditory cortex every second of the day.

I've been assaulted at the gym every single day for over 400 days.
Now they started burning my muscles until they disappear to stop future outcomes in every muscle.

I have a reason to believe that people in control of every industry aren't the industry...Trump Administration will attempt to make the changes he thinks is best for his Administration or America but appears that in his digital world there's too many problems preventing him from doing what he wants. What he does will be Plagiarized or given a generated fictitious identity. There's nothing real on planet earth. Nothing can get done when I have a biological system connection to the International Space Station or Microsoft connected to my Neurological System, inner thought and biological system. They will continue to distribute unlimited amount of resources to a population that doesn't exist who walk & rob amongst the living A population that isn't a population but were plagiarized who appeared in most of conception. They were ⁴⁸born dead. Reincarnated over and over with a contract. For some reason this contract was banned, voided, violated or broken. I see this reincarnation as a part of creation but they decided to take over the world instead of following the contract as it was initially written and unwritten.

It looks like His digital world has Obama occupying the same space. Obama is still in control. Unknown to President Trump. Because the Administration is a contract or International Space Station Administration when he makes changes millions of other people rewrite his changes to fit their income or objectives. It's a digital program world..I believe Obamas nomination are in every Administration past, present and future. This nomination always changes or rewritten based on objectives by individual African Americans or whomever wants to use it.

⁴⁸ Kenny Vawter

I've found a digital world with one identity generating every identity and communicating with what they generate in a program. In some cases it's their employment as a CD with a CD banking system.

Populating and employing communication with a banking system and contract targeting objectives. To stop or have another banking system in control of what people are trying to do.

⁴⁹Source of having more money in business takes ownership of everything changing manufacturing and potentially changing neurological systems.

Problems exist in populating and employing years in advance targeting other people's objectives. Occupying a space or position so somebody more qualified, educated, intelligent or what I believe has more reason than any other is creation. Targeting what creation creates as employment or populating and employing an outcome or 8 potential outcomes in a position to be in control of positions or employment. Potential outcomes of desires or crimes. Having other people in control of these positions. They are willing to do anything to have employment especially kill people. Born with the International Space Station in their brains, biological system and spinal cord.

In most cases education gets surrendered. It's sold for more income. Eventually changing the mathematical formula of the brain preventing employment from making decisions with outcomes that make any difference. They enter a predicted future outcome program that makes decisions for them. They are mathematically deceased or dead. These changes to employment target the industry and creation. There's a stronger possibility that predicted future outcome programs they use are other peoples neurological systems they assassinated. Who were created with those career outcomes or other career outcomes.

What does creation have to do with these industries?

They removed creation making it a banking system in every industry..These banking systems don't work any longer other than assassinations. Having the dead in control of something impossible to be in control of without massive consequences. Having every future populations pay the price for something nobody could figure out or impossible to stop.

This information is from a program that plagiarizes the internet in forced to use..It may or may not be 100% accurate but it's to lead you in the right direction of something that's been ongoing for many many years.

Industry sectors

- Primary sector of the economy (the raw materials industry)
- Secondary sector of the economy (manufacturing and construction)
- Tertiary sector of the economy (the "service industry")
- Quaternary sector of the economy (information services)
- Quinary sector of the economy (humanitarian services)

The Global Industry Classification Standard (GICS) consists of 11 sectors: Communication Services, Consumer Discretionary, Consumer Staples, Energy, Financials, Health Care, Industrials, Information Technology, Materials, Real Estate, and Utilities.

Financial services, healthcare, retail, software and services, and transportation and logistics.

The biggest industry in the world, in terms of both revenue and global impact, is generally considered to be manufacturing. It involves the production of goods and products, contributing significantly to global trade and employment. Other large industries include retail, oil and gas, insurance, and financial services.

Here's a more detailed look:

Manufacturing:

This industry encompasses a vast array of activities, from producing consumer goods to industrial equipment. It is a cornerstone of global trade, with China, the United States, Japan, and Germany being major players.

Retail:

A large and dynamic industry, retail handles the distribution of goods to consumers. It's a major source of employment and revenue globally.

Oil and Gas:

A critical sector due to its role in energy production, oil and gas exploration and production are major global industries.

Insurance:

The insurance industry plays a vital role in providing financial security and risk management for individuals and businesses.⁵⁰

Financial Services:

This broad category includes banking, investment, and other financial activities that are crucial for the global economy.

Chromosomes in fat burners..(?)

For consumers who don't use Anabolic Steroids..The key is to eat..Just eat...With a simple formula..Complex carbohydrates(Fries), sugar, simple carbohydrates(fruit) opens doors for amino acids that open doors for proteins.

In many cases this research determined the carbohydrates or sugars aren't calibrated correctly allowing carbs or sugars to open doors for aminos to open doors for proteins...

Everything in bottles of nutrition are ⁵⁸BANKING SYSTEMS..Turned off or Turned on.. Who's in control are killers...It's attempted murder or in some cases it's murder....

I also figured that a program that plagiarizes the internet consists of generated fictitious name brand identities. Name brands of products including Nike..were sold to live a more luxurious lifestyle..giving anybody who's deceased existence or dead access to a name brand identity. Selling a product that looks like Nike but with manufactured defects. The shoes don't communicate with creation...In other words...Running on earth.. Asphalt..Grass.. Clay.. Pavement..They fall apart...To fast..To soon..

Buying a product on the internet could be plagiarized over 80% of the time...Inside out changes...ingredients change...Nutritional facts are plagiarized..Generated fictitious vitamin identities. One vitamin plagiarizing another vitamin.

Looks like Nike...But it's not...

Looks like C4 but it's not..

Looks like L Aspartic Acid but it's not..

Looks like Vitamin C but it's not...

Or Nike never giving Michael Jordan a percentage of his shoe like they promised.

Removing a Market to set up the greatest athletes in the world...Rewriting the market to kill every athlete keeping every athlete preoccupied with more money.

Similar to employment..Not employed by the store but employed by a contract who works at the store.

Populating a surplus(?) of products in the store using predicted future transaction outcomes targeting consumer purchases.

Nutrition isn't nutrition...it's a banking system..Turning on or turning off with more banking system gifts and more attempts to steal funds from bank accounts or generate identical deposits.⁶⁰

In many cases it's wanting a consumer's muscle gains or weight loss to look like something. Over the course of so many purchase transactions buying a product the product changes. More plagiarism targeting Arginine or hormones that could build muscle, manufactured hormones belonging to narcissistic arrogance in products, chromosomes, homosexual testosterone or efforts to build a homosexual testosterone in the neurological system. Making it look like the homosexual are the reasons why somebody gains muscles when indeed it's not. More efforts of using nutrition to change a human being's creation, vibration or spirit for those who don't know vibration.

At this point I'm not impressed by what nutrition is in America....It's annoying every time I walk in a store that sells nutrition knowing the potential outcomes a year later.

Too many problems from the inside out...

Nutrition has excuses for everything from using homosexual programs to answering questions knowing answers before questions are asked. Their curriculum is a demonic interpretation of trickery, deception, greed, control and power. Exactly where Satan would be . Occupying the empty spaces of their minds filled with ejaculation of their origins of existence in caterpillars. Their Supreme Court makes no difference...it's the same embarrassing interpretation of events using a program that provides information in a contract with more embarrassing banking systems that reverse the lie and make it the truth.

Crimes and murder behind every ingredient, every vitamin and every formula. I'm pretty sure you could find the seven deadly sins in what they label nutrition in America after every ingestion while you sit on the throne..

Using my bank account and IRS to deposit my money in their bank accounts.(Thanks to Ukraine and Russia)

Is it the Trust Officer

Serious questions about Zia Trust and Estate Committee Intelligence (contracts)

No questions about no intelligence at Zia Trust and Estate Receptionist /Maybe I'm breaking up during conversations/Hearing Aids/Memory/Contracts

It's embarrassing having to communicate with these people..(contracts?)

Maybe there's a good explanation for it..

Other than Stupid..

I think employment has other people generating that employment who communicate using that employment targeting extreme emotions or generate problems.

They generate employment identities that communicate in the digital world.

Distributions preventing me from purchasing another vehicle by the same people who broke my truck..

⁷⁹ Missing Identity Data at IRS, They changed my identity at IRS, Regenerated in Digital Worlds, Changed Nations Technology to cover up stealing inheritance, Tax Returns, Major League Baseball Total Career Earnings, Major League Baseball Tax Returns, Total Career Earnings, Identity Data algorithms, Total Product Earnings, Predicted Future Income Outcomes in every career outcome and other career outcome, Banking Systems and Intellectual (inner thought in laptops around world) property earnings Larceny and Embezzlement_kenny_wesley_yawter

Assassinations of sports executive in data behind documents pertaining to purchasing a vehicle and after purchasing the vehicle (?)

Selling vehicles at my potential dealership needs to know the curriculum in the data world behind documents..

Entering state data with registration, title, fees, plates, tags and Etcetera..

I think these mathematical formulas of dead or deceased entered my business endeavors and started businesses that I would start to commit crimes..

Probably using my identity they generated or manufactured storing that data as my identity committing the crimes.

Sending information to the Universe...(?)

Reading something changes it to a contract..??

Reading a contract renegotiates the contract or changed the contract..??

⁸⁰I was sent to Hell...

It's in the brain on earth..

I figured why people are the way they are...

Why they think the way they think..

It's more of behavior..

What they say..

Their brains are in Hell..

They enjoy having their brains in people's lives..

I have a feeling that banking in America are brains in Hell..

People in control of other people's money are contracts..

They are unpredictable..⁸¹

They never keep their earnings in my brain..

It always dissolves..

Created as the World's Market.

Created as VP MLB Director of Scouting Conception

Created with #1 DNA

Created with Major League Baseball Hall of Famer electrical system..

I'm communicating with a contract in the digital world that will never fully understand what I AM who knows more than they do about selling a product to every Neurological System on planet earth...

They rewrote a planet to stop this Corporation..

The brains at the highest executive levels killed themselves to stop this Corporation spending a number of digits that traveled outside the numeric system.

They used extraterrestrials to stop me and scar my face.

They used every planet in the Universe to stop me..

One day when they compare what they did to what I've done and will do the population of the world for the next 400 million years will know who I AM and why I'm the greatest VP MLB Director of Scouting Conception that will ever walk on planet earth..

I ⁸²(Kenny Vawter) was sent to Hell to figure out a population to sell a product that rewrites itself as neurological systems change during the course of generations to generations..

Taste,
Sight,
Smell,
Touch,
Sound

Having everything I love try and kill me..

I (Kenny Vawter)rewrote Sports on Planet Earth..

I (Kenny Vawter)could potentially initiate the Greatest Corporation on planet earth that creation creates with employment.

Kids will grow up wanting to work at Kenny Vawter..

Graduating wanting to work at Kenny Vawter..

Employing the most creative and exciting human beings on planet earth..

That knows 100% without a reasonable doubt what the founder and creator of Kenny Vawter went through to initiate a corporation that gave them employment..

Hiring employment may allow a pyramid of crimes..

Certain positions employing certain people allow crimes to continue

It's in their employment/contract

Money exchanges that aren't formulas paying transactions. that are⁸³ formulas for consumers identities that are formulas..(?) Robbery?? Taking ownership?

When what consists of my identity enters technology someone tries taking ownership of objectives..(?)

Prescribing or funding prescriptions to multiple identities occupying the same identity. They prescribed opzelura(?) for vertigo

Returning to Dealership Potentially had Employment change at Dealerships when services weren't finished.

Telling me braking system sounds were normal..

A different Service Manager told me whining sounds or grinding sounds were normal ..It's stupid..

General Contracts at one dealership are Plagiarizing employment at other dealerships telling me brakes whining and grinding are normal...

Changing banking system 'zip code' or 'area code' phone numbers changing ownership, location, employment, purchase agreements, titles, deeds, registration, plates, tags, extended warranties, insurance and etcetera (?)

I think all documents on the internet are plagiarism or generated fictitious identities which are fraud with formulas of bank accounts hidden behind as its data or data taking ownership of documents with potential court orders or objectives.

I think baseball players employment in every resource outcome is generated fictitious identities or fraud.

If they have to use the Supreme Court which happens to communicate with the International Space Station they generate the Supreme Court identity..

Judge identities

DA identities

Pay Roll identities

It could potentially be state and government identities

It could also be changes to Neurological Systems to dead or deceased existence for more income.

⁸³ Kenny Vawter missing identity data at IRS Missing Identity Data at IRS, They changed my identity at IRS, Regenerated in Digital Worlds, Changed Nations Technology to cover up stealing inheritance, Tax Returns, Major League Baseball Total Career Earnings, Major League Baseball Tax Returns, Total Career Earnings, Identity Data algorithms, Total Product Earnings, Predicted Future Income Outcomes in every career outcome and other career outcome, Banking Systems and Intellectual (inner thought in laptops around world) property earnings Larceny and Embezzlement_kenny_wesley_vawter

Their entire employment is fraud occupying a space at state, federal government or etcetera to stop or objectives other potential original employment.⁸⁴

I have reason to believe these formulas of bank accounts that fraudulent(?) employment target athletes digital world and worse case scenario murder by natural causes, suicide assassinations(manufacturing and generating suicide)and murder.

This employment communicates with the International Space Station killing athletes..

Judicial Racketeering

Generating fictitious Supreme Court identities in every employment outcome or criteria to commit a crime or objectives.

Infinite background appears as assassinations with FBI identities

Employed by contracts taking departments, organizations or industries to hell..

Every potential reason to condemn sports jersey numbers

Embezzling sports contracts before depositing in athletes bank accounts

Changing states or nations technology with sports contracts and changes made with data side and information including statistics with data sides..

Tax Brackets

Real Estate

Insurance

Investments

Transportation

Yankees are Middle Eastern assets with extraterrestrial technology employing athletes on every team..

What that causes, generates, manufactures or creates on the data side with infinite existence, reincarnated athletes with multiple universes in muscle fibers or strands..

If merging acquisitions with Microsoft, International Space Station and Department of Defense or banking systems have infinite communication do these changes create and manufacture changes to muscle development, full maturity levels and performance..(?) etcetera...

Dollar signs in everything...

4:42 AM Tuesday October 21, 2025

Time was changed to commit murder by ?? CIA, Scientists, Military??

It's all banking systems that change location or time..

There's lots of entertainment or showmanship for the surveillance cameras and conversations..

Accurate documentation determining involvement doesn't need another identical conversation or FICTITIOUS PRESENTATION in front of surveillance cameras after changing state or nations technology to start again or start over with more regenerating finances in sane other people's bank accounts in another digital world or state and nations technology. The money getting distributed will kill every person who follows the contract again and again. Appears this time

⁸⁴ Kenny Vawter

uteruses are changing or rot out..Not a problem for most people unless they want to develop the fetus. These people don't understand the severity of eventually completing the mathematical change of the neurological system...It shows without qualities, values, morals, virtues, attributes or spirit the change happens pretty fast.

I have reason to believe it's a massive withdrawal or deduction of anything spirit or removing anything spirit, love and light..

This evening Nebraska lost their souls...I don't think changing Nations or states technology will make any difference....

I don't know the consequences of extraterrestrial technology populating neurological systems as of yet..

If that's possible...

I have another reason to believe seasons are banking systems that could potentially remove or shorten a season.

They won't have the resources outside other than Laboratories for food..Changes from inside out to accommodate the deads Distribution of energy in the Universe..

Unless changes outside are made for this Embezzlement of nutrients..

I think thoughts data changed in the Universe..

No data side to thoughts..

Inner thoughts were assassinated and replaced with a program and laptops..

Born with reincarnated inner thoughts, without inner thoughts pending connections with Microsoft or International Space Station and programs..(?)

Bombing world trade center using my identity (?)

Manufacturing problems using my identity to have my identity in neurological systems for them to not like me..

Populating a population or future population with my identity in neurological systems that creates dislike for me.

I think what they did to me they did to Jesus of Nazareth or Ishmael on earth and Jesus when he entered the Universe..

Using CD State or Nations Technology on laptops

Products from different state or nations technology

Employment in different state or nations technology

Nutrients or food distribution in different state or nations technology

Etcetera

Other states or countries technology at places consumers do business with..

Every consumer or individual consumer or in America's case they are not considered consumers but laundering from places of business or financial institutions because of it's banking systems or cd banking using different state or nations technology making what appears as purchases but stealing from places of business with generated fictitious transaction outcomes getting documented or not documented from data side or outer side.

Are programs in neurological systems from different state or nations technology (?)

What challenges am I facing with consumers or changes made from one nation or state technology manufactured or generated by consumers purchasing products(?)

?? What if I take consumers desires written in the Universe to create something I need or want at Kenny Vawter then employ those desires and sell products creating and manufacturing those desires..

Is it emotions or thoughts.??

Specific desire and extending life expectancy..(?)

Extending Bio masculines, escort, strippers(?), adult entertainer and etcetera life expectancy or my employments life expectancy in outer space..

Desires life expectancy in Vegas or employed at Kenny Vawter or in neurological systems who desire

Example..

Faith in GOD creates demons or creates demons existence..extends demons life expectancy..(?)

Something like that..(?)

Changing states, Nations or satellite technology corrupting vehicles computer modules(?)

Using conversations in search for outcomes from individual neurological systems or existences outcomes in neurological systems in outer space.

No longer used old cell phones or computers no longer used in laptops in changed states and nations technology sending and receiving information or communication.

Who they are causing injuries, sickness, disease, death and etcetera will determine prescriptions and types of recovery..

Homosexual scarring...ex.

Industry formulas need rules and statutes

Sending text messages or emails in one state or nations technology to another cell phone number or email address in another state or nations technology that I believe enroute gets plagiarized with other information in text or information in the email. Programs plagiarizing formulas of misinterpretation could potentially be rewriting information in text or emails changing communication embezzling emotions ruining friendships, relationships and reputations.

Using the no longer existing with records of only what they are doing condemning others.. probably using other identities that record those identities and only what they are doing to condemn others.

Injecting poisons or toxins in testicles before ejaculation

Entering human backgrounds or families data side or inner side and stopping, removing, stealing, duplicating, regenerating and etcetera deposits on the outer side.

Stealing Neurological system earnings and generating data deposits on the inner side or data side of internet that regenerates(?), manufactures(?) currency on the outer side.
Spending that money removes eternal life or what target objective creates in the Universe..

Human background removing neurological system earnings that removes my immediate family's infinite existence or what target objective creates in the Universe...(?)

Removing eternal life or infinite existence from a population by removing neurological system earnings..(?)

These lawsuits were shedding light on something that was going on in my life after NASA Washington generated my identity as a program after stealing my money.

It's to disconnect my biological system from the International Space Station, remove Microsoft Government from my biological system, inner thought and spinal cord and remove weapons connected to my biological system, musculoskeletal system, Neurological System and inner thought.
