**Description of dissatisfaction with products, services, providers and unhappiness to financial matters:**

**Common areas of discrepancies:**

1. Auto Centers & Dealerships in Omaha, Nebraska continue breaking truck over 57 times(?)
2. Fabricating fictitious DATA or inner side generating information on the outer side of programs that plagiarize the internet.
3. I think it's a contract or banking systems in the computer module that's generated fictitious records to not maintenance or repair vehicle.
4. I have reason to believe it's unwritten (thought in Universe) that changes mechanics human creation to homosexual if they follow the contract.
5. Biological System Connection to the International Space Station turned into a mental health diagnosis to steal inheritance and Total Career Earnings.
6. I think they broke my truck every time I brought the truck in to get maintained or repaired for nine months.
7. I have reason to believe it was broken on the data side or from data sides potentially using and covering it up by changing states and nations technology and in many cases there were payments made for maintenance and repairs without maintenance or repairs made or completed. Work was left undone while the data side documented work completed.

8. Populating and employing convicted felons to commit a crime without a felony banking system. These potential crimes by convicted felons could be the reason why they removed convicted felony banking systems for every convicted felon making it more difficult to get a job.
9. I have reason to believe they remove inmates from death row to commit a crime of attempted murder or what consists of attempted murder.
10. Changing state or nations technology stay ongoing.
11. CD DATA SIDES or laptops generating fictitious information

This involves identities in the Universe and planet earth. Families in Sports used their infinite background to campaign or set me up with a biological system connection to the International Space Station, weapons connected to spinal cord and Microsoft connections to biological system and inner thought to steal my inheritance, Tax Returns, Major League Baseball Total Career Earnings, Total Career Earnings in every career outcome and other career outcome, Banking Systems, Identity Data algorithms and Intellectual (inner thought in laptops around world) property earnings Larceny and Embezzlement. In some cases those identities are the deads identities after they entered the dead or changing the mathematical formula of the neurological system to the dead. Their demons distribute demonic intelligence or predicted future outcomes but not in every case because of the damage that's been done. In other words their spirit leaves the body entering the Universe as something. Spirit is Vibration or Demonic Vibration.

There's tons of generated fictitious identities receiving information who impersonate contacts on this program that plagiarizes the internet. I don't know who receives this information other than entertainment website set up by defendants who exploited me for 37 years or more and stole my identity data algorithm to have employment, embarrass original Major League Baseball they assassinated generating fictitious Major League Baseball identity or Embarrass the Real Vice President of Major League Baseball Director of Scouting or Major League Baseball Conception Position.

They manufactured and generated multiple identities occupying the same identity after removing or assassinating my original identity or birth identity in the<sup>3</sup> DATA world. They killed Senators years ago who wrote me in the Constitution as VP MLB Director of Scouting. I'm not aware of anything written in the Constitution regarding Conception but I'm the Real Conception in Sports. They spent \$900 Decillion digits

that launder from financial institutions, money or earnings from neurological systems that could be identities to remove me as <sup>4</sup>VP of MLB Director of Scouting Conception in the Universe. I figured out when you do something for me you do something for others. There won't be any killing by FBI Racketeering Divisions, Law Enforcement Racketeering Divisions, Market Assassinations or employed by contracts I have that taken care of. If your concerned welcome to Major League Baseball VP MLB Director of Scouting life experience with these guys who killed over 900 million athletes stealing their total career earnings that potentially enter 40 billion athletes stealing their total career earnings. They generated my identity as a program that investors or assassin's invest in at Wall Street. I don't know exactly how they did this but it's like they made my human being or human creation a corporation they partnered with using merging acquisitions. They reference positions in Sports using their neurological system as whether or not someone is employed or not. If they decide not to generate a position in the program connected to their neurological systems then someone isn't employed. They changed the mathematical formula of their brains to deceased existence or dead only allowing them to communicate with deceased existence or dead or a program that generates their identities in their neurological systems. They can't or choose not to for a number of reasons communicate with the living unless they generate their identities in a program or generate their bank accounts. In some cases these people who enter the dead use banking system lifelines and in many cases they will lie about their anabolic steroid lifeline when indeed it's not a lifeline but entertainment.

The dead can't have employment unless they use somebody else's identity data algorithm. It's possible they manufactured this identity data algorithm in the Universe populating a world using my identity data algorithm. I don't know when they started distributing my identity data algorithms around the world but I do know it's their assassinations.

Researchers and shredding of material stays ongoing to cover up crimes of embezzlement, robbery, laundering and larceny so gathering information might make it more difficult. The dead use predicted future outcome programs that populate positions around the Nation and world embezzling banking communication with deception and egotistical polygamy. They lie.. they've always been a lie and will continue as a lie. Now you know..

<sup>5</sup>Contract to exhaust & embezzle my life working on something they manufactured spending an infinite amount of digits that launder from financial institutions.

I have reason to believe every communication contact on this program that plagiarizes the internet stole my inheritance, Tax Returns or Major League Baseball Total Career Earnings.

I believe there could be fifty million.

They generated a fictitious identity in the DATA world.

Distributing my identity data in the DATA world to employment by contracts that actually masturbate or programs that masturbate storing information in the digital world or specific data search outcomes.

Campaigned in a Porno Pyramid scheme which includes franchise fraud, chain referral scheme, and investment fraud, which are all terms describing fraudulent systems where early investors are paid by money from new investors rather than from genuine profit. While distinct, a similar fraud is the Ponzi scheme, which uses new money to pay existing investors but typically involves a fabricated investment or asset.

I've been assaulted so many times by weapons connected to my biological system that a human being would die of old age before they finished counting.

For example..

6 billion(?) people on planet earth or the population of the world individually were given 900 Decillion identities or my total existence earnings for the next 400 million years. Individually assaulted me 900 Decillion times. They gave 6 billion people individually 900 Decillion populations with 900 Decillion assaults and 900 Decillion worlds or changing the<sup>6</sup> Nations or worlds technology. They made up worlds that don't exist. They made up populations that don't exist. I have reason to believe they gave Identities in the Universe the same number or more...Individually..

I need the court to remove contracts at law\_firms asking law enforcement or FBI permission to file lawsuits, rescind judgement, vacate judgments, revoke power of attorneys, dismiss rulings filed on my behalf to steal my money and inheritance, dismiss lawsuit orders, vacate and dismiss default judgements, procedural errors, plagiarized new evidence, generated fictitious identities or fraud at Supreme Court or District Courts, remove their education that plagiarizes legal documents to steal my inheritance or prevent deposits in my bank account, remove program that plagiarizes the internet im forced to manipulate, remove generated fictitious identities or fraud from every communication outcome with same banking system and contract that stole my money, remove referendum, remove non compliance, return identity at IRS, remove segmentation, revoke family and business Constitutions written and unwritten with assassinations and return missing identity data at IRS in every courthouse in the digital world, laptops and programs that generate fictitious identities. **My digital world was manufactured in or generated in other people's laptops that stole my money. I'm only communicating with the same employment by contracts that stole my money or attempting to steal my money.<sup>15</sup>**

This involves former athletes who Racketeered my draft selections who entered law <sup>16</sup>enforcement that set me up using contracts that sent me to hospitals to steal my money or take control of my money but I wasn't found incompetent.

They generated my identity as a program with fabrications of information to change my identity. Then they set me up to store information that made me look like someone else impossible for me to become. This involves Entertainment Industry Actors that were given my Major League Baseball Total Career Earnings exceeding \$9 billion dollars targeting my eternal life. They want to condemn the VP MLB Director of Scouting Conception using Larceny.

I have reason to believe athletes I played with in high school entered the Phoenix Police Department laundered out money from Merrill Lynch that entered their bank accounts then it was restructured as a digit then sent to the 740th Tank Battalion, regenerated or rewritten in the digital world targeting my inheritance and distribution. I don't know if investments were in the inheritance at Bivens & Associates or Zia Trust Inc. They made changes to investments or embezzled funds over the course of 50(?) years. I don't know why the 740th Tank Battalion were involved from the beginning. It's an obvious red flag. They use predicted future outcomes sent from the Universe that enter programs to steal my money. It's used in Finance, Marketing , Microsoft, Sports and etcetera. It's more accurate than statistical probabilities.

This involves White Collar Education rewritten at the University and Supreme Court to fabricate documents to steal my money.

They started giving me repair order contracts that would indicate no obvious sounds or tell me it's normal.

New Truck Purchase Emergency Trust Committee denied after Dealership in Papillion Nebraska damaged braking system.

Securities embezzlement??

Depositing my interest in their bank accounts.

I think Omaha Nebraska probably African Americans or law enforcement Racketeering Divisions generated fictitious Zia Trust and Estate or Zia Inc. identity then took control of my communication.

Took control of dealerships communication.

They may be employed as contracts or graduated from Arizona State University or Sundevils Baseball Program who didn't recruit me from Arizona but set me up my identity as a program to steal points and hit statistic ratio measurements to cover up breaking the National Batting Title.<sup>43</sup>

I also broke the consecutive hits record, on base percentage, slugging percentage and<sup>44</sup> total hits in so many conferences. I wasn't a banking system (knowing what pitch was coming) or taking performance enhancements.

I think my batting average was .800

I'm disputing:

A new truck purchase, extended warranty, registration, title, plates, taxes, fees and etcetera.

Law Enforcement Racketeering Divisions generating fictitious vehicle bluebook cost or Fraudulent Bluebook

It's the digital world at Dealerships and data behind everything that has other people or employment taking ownership of vehicle purchases.

It looks like every vehicle was purchased in the digital world by someone who generated or didn't generate my identity.

Masturbating in the vehicle or didn't masturbate in the vehicle.

Get sodomized in the vehicle or didn't get sodomized in the vehicle.

Put their fingers in their vagina or didn't put their fingers in the vagina.

They start formulas..

To the best of my knowledge they target Major League Baseball Players

It could be the African American banking system(?) allowing this to continue..I don't know for sure..

I don't know why this happens in sports but campaigning my identity as a program in a Porno Pyramid could be the reason.

<https://photos.app.goo.gl/LpH6EN8QXVwYLBpd7>

I need to purchase another vehicle as soon as possible.

It's an emergency..

They occasionally will lock the doors attempting to lock me out of my truck.

This is a break\_down in Nebraska with freezing temperatures.

I think they changed the entire city's digital data blueprints(?) or algorithms targeting a potential truck purchase.

From the inside out.

Taking ownership of a purchases

EFT Wiring Transfers in Law Enforcement bank accounts

Patriot Act EFT Compliance Violations

Bank Secrecy Act Violations

Changing of Dealership ownership

Employment by contracts at sales, finance, service and etcetera who aren't employed by dealership that could potentially be part of law enforcement or entertainment industry set up to sell me a truck after breaking my truck.

I don't know for sure..

They started populating every outcome in Nebraska.<sup>45</sup>

They started trying to stop every objective outcome.

Purchasing another vehicle after they broke my truck and refused to stop the grinding sounds and clunking sounds with a contract that would document no obvious problems with brakes and tell me there's no problems with brakes could potentially have a contract in the purchase agreement preventing me from service, maintenance and repairs.

I'm trying to avoid employment by contracts from<sup>46</sup> breaking another truck.

I'm also concerned of Trust Officers pressured to deny a new truck purchase by law enforcement or entertainers.

Concerned about distributions of large sums of money deposited in their bank accounts to stop me from buying a vehicle.

Concerned the committee denied a new truck purchase because they stole my interest the past 13 years or more.(?)

They could have been part of breaking the truck from the beginning.

I think the dealership where I purchased the truck entered H&H employment at service that told me the sounds were normal. Red flag after 8 months of trying to fix the brakes with the same contract telling me it's normal..

It's not normal...They damaged the braking system..

I believe the Dealership damaged braking system collaborating with H&H Chrysler Dodge Jeep Ram and <sup>47</sup>Law Enforcement Racketeering Divisions to stop me from repairing vehicle.

Returned to Dealership to make an appointment at service and potentially purchase another vehicle. I wanted to send another purchase agreement via email or fax to Zia Trust and Estate or Zia Inc. After 8 months trying to repair the braking system I anticipated the worst. While at Dealership I received a phone call from the GM regarding BBB complaint. He said he would take care of the brakes and try and get me in another truck. I was given a sales associate.

I wanted to purchase another vehicle anyway I was exhausted trying to stop the grinding sounds and clunking sounds.

The Trust Officer wanted me to keep trying to fix the truck..

They couldn't fix brakes.

Contract employment entered the service bay when I returned with grinding sounds and whining sounds while slowly releasing the brake pedal telling me it's normal.

The words normal entered other Auto Centers the past 8 months trying to stop grinding sounds and clunking sounds.

I think the dealership where I purchased the truck at Baxter entered H&H employment at service that told me the sounds were normal. Red flag after 8 months of trying to fix the brakes with the same contract telling me it's normal..

It's not normal...They damaged the braking system..

I can reproduce the sounds..

Brakes were still grinding with whining sounds as I slowly released the brake when I left.

I think I'm a data algorithm in other people's laptops in the data world they generated in a program in every career outcome and other career outcome. They either worked my career outcomes and other career outcomes using my identity data algorithms and banking systems or used the missing identity data at IRS to generate my identity as a program in their laptops filing tax returns as me or on my behalf..

I worked or played every career outcome and other career outcome in the data world but in reality they set me up, arrested me, stole everything from me and forced me out my house, had me leave Arizona to figure this out knowing I had one outcome as the richest man in the world thinking of products to sell worldwide as I attempt to employ legal representation and while doing so I figured out the mathematical formula of my neurological system as VP MLB Director of Scouting Conception.

I think original or real lawsuits filed will trigger disconnections from International Space Station, Microsoft and weapons connected to spinal cord.

I exist only as data algorithms in their laptops to steal my inheritance and Total Career Earnings with connections to ISS, Microsoft and weapons attached to my spinal cord..

They embezzled over \$800 million dollars then embezzled \$9.8 billion dollars

I think the data deposits in my bank account indicates \$44 million dollars deposits
